### **Programming:**

We are working on a draft programme. There will be only minor changes to the track programme. Both pole vaults will be on Saturday and we are re-looking at the horizontal jump programme to accommodate the expected large numbers in those fields. In essence, there will be little change to last year's programme and a draft programme will be promulgated in the August newsletter.

Further information will appear on NZSSAA website and on the subsequent newsletter to be published in August.
