

International Track Meet 2013

The International Track Meet (ITM) will be held at Christs College, Christchurch on Saturday February 2nd 2013, and we are pleased to again offer the opportunity for several New Zealand Secondary Schools Athletics Champions and teams to gain automatic entries to various events. One of the major premises behind the ITM is to offer the chance for current and future New Zealand star athletes to compete in top class fields in front of a large crowd at home. We wish all the competitors the very best and hope to see many of you competing in Christchurch.
