

# New Zealand Secondary Schools Track & Field and Road Champs Results

## Real Time Results on the Web

Athletics New Zealand is assisting the NZ Sec Schools Assn by providing Real Time Results on the web for the NZ Sec Schools Track & Field and Road Race champs in Dunedin 7-9 December.

Results will be available at <http://performance.athletics.org.nz/liveresults/nzss2012/>

Results for track events will be available as soon as the result has been confirmed. This may be a few minutes or longer, depending on whether there are any difficulties. Results for field events will generally be available within 60 minutes of the event finishing, to allow time for the results to be checked and entered.

## Android and iPhone App for Live Results

Athletics NZ has also organised a Smartphone App (iPhone and Android versions available) called **Live Results** that will allow you to get start lists and results (from Meet Manager Real Time Results above) on smartphone, iPad and tablet. The App was used successfully for the Athletics NZ Track & Field Championships earlier in the year.

Results will be available via the App as soon as they are uploaded to Real Time Results (above). This is a great way to follow the champs whether you are at the track, at your motel or anywhere in the world.

The App has been developed by [BigFishSoftware](#) for both Track & Field and Swimming meets. It's very easy to use! The cost to download the App is around NZ\$1.25

The NZ Sec Schools champs are loaded and ready to go on the App. You just need to add the meet you want to follow from the meets on the list.

- To purchase Android App go to <https://play.google.com/store/apps> and search for "Live Results".
- To purchase iPhone App go to [www.iTunes.com](http://www.iTunes.com) and search for "Live Results".
