

NZSSAA Online & Mobile App Results

Meet Manager Realtime Results

https://nzssaa.org.nz/mm_results/nzsstfr2019/

Results for track events will be available online as soon as possible after all races of each round have been completed and the results are confirmed.

Results for field events will be available at the conclusion of each event but will take longer to check, process and enter.

Track Meet Mobile App (iPhone and Android)

This will be set up when timetable is finalised and will be updated automatically at conclusion of each round of track events and when results for field events have been entered into Meet Manager.

Notes:

Search for Wellington to find the NZSSAA Champs

This App is free to download, which will allow you to search for a meet, and view the meet programme, which shows the meet location, a scheduled order of events, and the athletes and teams who are competing - available only at meets where meet hosts and officials support the publication of results to mobile with HY-TEK Track & Field Meet Manager.

If you purchase a subscription (\$US5.99 for 1 year or \$US1.99 for 1 month), you will get meet results, including times, marks, order of finish, wind readings, field series, and more.
