

NZSS Parking Plan Information

The area surrounding Ashbury Park is very tight for parking so a full parking plan has been put into place as per below. Please carefully read the following information and refer to the map supplied to help us avoid parking congestion.

Fortunately a large proportion of the accommodation options in Timaru are within a short walking distance of Ashbury Park. We recommend walking to the venue where possible.

The ASB Tennis Centre car park at the end of Benvenue Avenue has been specifically put aside for mini-van parking. There are up to 60 spaces for vans available and all schools utilising **Mini-vans MUST** park in this area. This will help us to alleviate the main bulk of competitor's vehicles. There is a side path right next to this area which leads directly to Ashbury Park (indicated by Blue Arrow on map)

Large buses may utilise the bus stop directly in front of CBay Aquatic Centre to de-bus their passengers (purple line). Turn right into the second entrance of CBay, drop passengers off then turn out second entrance of CBay and then left into Virtue Avenue where there will be space for large buses to park (Purple arrow). Under **NO** circumstances should large buses go past the second entrance to CBay as the roads beyond that point are not wide enough for buses to turn around in. Please be aware that on Saturday morning there are a number of swim lessons held at CBay and the car park area will be very busy.

There is car parking available on Te Weka Street, Park View Terrace and Benvenue Avenue above Ashbury Park but these will quickly fill and there is limited turning space in these streets once both sides are taken up with cars. Please show courtesy to residents and avoid blocking driveways. Again, offenders can expect to be towed. It is recommended that cars park on the other side of Evans Street/SH1 using Hobbs Street, Ranui Avenue and Grassmere Street all of which have lights at the Eastern/park end enabling pedestrians to cross easily over to Ashbury Park.

Under **NO** circumstances should people park in those areas utilised by local businesses (as indicated by red crosses on the map). These car parks are specifically for current customers of those businesses and offending vehicles can expect to be towed. In addition the area on Pringle Street directly by the start area is reserved for event officials and food and drink vendors.

Thank you in advance for your consideration where parking.
