

This map providing directions on how to enter the event grounds at Saxton Field is provided for the following reasons:

- On Saturdays, Saxton Field caters for a multitude of sports with netball and football in particular catering for large numbers. Their events are predominantly held at the northern end of Saxton Field (Nelson end) and, for this weekend, traffic for these events will be encouraged to enter Saxton Field from that end. To avoid congestion, traffic for our event is requested to enter Saxton Field through the southern entrance as shown on the map.
- Entrance to Saxton Field is also substantially hindered by major road works being completed opposite the entrance. These road works prevent any traffic coming from the south (Richmond) from making a right-hand turn into Saxton Field. As you will see from the map, if arriving from the Richmond end you will need to continue past the entrance to the next roundabout and then backtrack south to enter Saxton Field from that direction.

We ask you to abide by these instructions as we have negotiated with other sports that, to avoid congestion the southern entrance to Saxton Field is for our event only.
