## INTERNATIONAL OLYMPIC COMMITTEE MEDALLION AWARDS

The I.O.C. honoured the 16th Championships by making available medallions to be awarded to both Officials and Competitors for a significant contribution. This is a very rare honour, such medallions being issued in only small numbers and being shared by all the Olympic Sports as the years go by.

The following athletes were chosen for a number of reasons, including outstanding performances, competing with confidence in a number of events, showing determination and courage in competition and successfully combating health problems to compete with credit. In keeping with the Olympic tradition the names are listed without performances and in no particular order, to place the emphasis upon simply competing for the sake of competing.
